### **Please find your invitation to our 2024 Ram Sale**

Again this year we have been blessed with good rainfall to give us the potential of another excellent season.

Both drafts of rams are again showing their genetic potential and we are truly pleased with them.

Our wool tests from the May shearing were very pleasing with the rams testing 19.6 micron and the Stockscan results from the July testing for both breeds are excellent.

We have continued to purchase, very carefully. Recently an exceptional new stud sire was added to the program Glenlea Park 230039 for \$15000. This purchase will compliment our already strong Poll Boonoke genetics we have been using for many years. We are very confident that he will add further to our wool quality whilst retaining the dual purpose traits we are known for in our Poll Stud.

With this years drop of lambs showing continued improvement, this is a true testament to the direction we are taking with our breeding program.

We believe the new White Suffolk sires that have been added to our own sire battery, have continued to maintain the quality of our stud while giving us new genetics.

The confidence of the White Suffolk Ram quality lead us to continue our offering in the sale of 120, with a strong result last year we will be offering the same number this year. Again giving our clients greater selection and availability to our White Suffolk Rams.

No doubt we are all very pleased with the excellent lamb and mutton prices people are receiving at the minute, and we believe with world demand this will continue.

We look forward to welcoming our established and potential new clients to our 37th Poll Merino & 21st White Suffolk Sale on Friday 13th September.

Look forward to seeing you all, to celebrate our special celebration of 37 years of Polls & 21 years of White Suffolk auctions at Almondvale

Kind Regards Peter, Paul and Family
